

Hello, My name is Corey Whiting and I am writing you to tell you about my experience about my back and neck. Before I started going to Fitzer Chiropractor I was having serious problems with my back and neck. Before I couldn't even bend down and touch my feet without crying out in pain. When I turn my head I was in pain because my neck would pop and go numb at times. Fitzer Family Chiropractor has helped me get back to the way I was years ago. I appreciate everything that he has done for me because I can bend down and touch my feet without being in pain and my neck don't pop and go numb as much anymore and I am very happy about that. Thank you to the Fitzer Family Chiropractor for helping me.

Sincerely,
Corey Whiting
